Living with Design

About Us

At KUN DESIGN, we create outdoor furniture and accessories that embody the contemporary era. Our products are developed from materials that retain the integrity of outdoor furniture without compromising the sophistication of indoor furnishing. Inspired by nature and life, our furniture can be placed anytime, anywhere, regardless of season and setting.

In pursuit of “Living with Design”, we design furniture with an inclusive language that is unlimited by spatial boundaries, for users of all backgrounds to explore the many ways to integrate design with space. Joining the strengths of “Designed in China” and “Made in China”, Kundesign hopes to bring products that are both modern and accessible to anybody who appreciates good furniture.

Our Story

Prior to establishing Kun Design, Kun worked as an independent furniture designer and collaborated extensively with brands across the world, including those from Italy, the Netherlands, Sweden and the U.S. His works have been a regular fixture at trade fairs such as Spoga+Gafa Cologne and Salone del Mobile Milan.

While finding international recognition, Kun came to realize an untapped potential within China’s industry of outdoor furniture - an enormous but fragmented market, with manufacturers of high caliber but heavily reliant on OEM. For Kun, his works represent a continuous dialogue between design and manufacturing, and he felt a need to use the force of design to better present “Made in China” on the global stage. With this ambition in mind Kun met his current manufacturing partner, a veteran outdoor furniture producer of 20 years and a benchmark for quality products. Joining the strengths of "Designed in China" and “Made in China", Kun Design was established to bring products that are both modern and accessible to the international market.

Designer

Kun completed his studies in furniture design at the NFU in Nanjing, 2012. Since graduating, he has collaborated extensively with international furniture brands, including those from Italy, the Netherlands, Sweden, and the US. His works have been regularly featured in exhibitions such as Spoga+Gafa Cologne, Salone del Mobile Milan, and ICFF New York. He has been awarded the China Good Design Gold Award in 2015, and the 2018 ICFF NYC X DESIGN AWARDS Honoree in Outdoor Seating

A designer who mainly engages with contemporary spatial and furniture design, Kun has a maker-mind mentality with deep insight into the manufacturing process. He strives to integrate his works with the procedures of industrial production to embody the latest available technology. Kun often upgrades and optimizes the current manufacturing processes in accordance with his designs and newly developed materials, in hopes that his products can maintain modernity and sophistication without compromising accessibility. His preference for designs with creative utility and emotional warmth can be seen through the details of his works.

Kundesign / 2020 Collection

JUMBO

Jumbo series represents an unhurried contemporary attitude towards leisure life. It looks like a jumbo item with “elephant ears” from a distance. Jumbo Lounge Armchair is wide with a handwoven backrest and wings, expressing a sense of embracement. The color of the wood and the combination of weaving make it very natural and harmonious. The thick seat and comfortable cushions can let a person rest on it all afternoon. The whole series includes a lounge armchair, a 3-seater sofa, footstool and dining chair.

BAGEL (KT8602) extendable table in Carbon/Jennygrey top.

LANTERN

The inspiration of Lantern series comes from the combination of oriental aesthetics and modern design. Lantern series is about "light", the lamp absorbs the configuration elements and special style from the traditional Chinese lantern and hand-basket. It retains the elegant "handle" design on the top, which can be easily carried and moved at will. For this hand lamp, it adds a small round bottom, which you can display plant, flower, decoration pieces to build the cozy atmosphere, delightfully fresh nature.

LANTERN (KH8510 floor lamp in Black Mat/Juniper Green)

LOOP

The LOOP chair was originally designed to express continuous lines. The entire chair is woven with a single continuous rope. In order to ensure continuity and product quality, the back and the seat of the chair were proportionally divided into four parts, which not only boosts the appearence, but also increases the product lifespan. Soft as well as responsive, the chair provides a comfortable seating experience without the need of a cushion. Additionally, the wear-resisting and strong PVC simplifies the cleaning processing - use a soft brush to give it a fresh new look.

BAGEL

To make human beings more compatible with nature, Kun balances wood with hand knitting. Bagel collection featured of teak-base, tightly woven rope, soft cushions and comfortable back cushion. Bagel has inside and outside double design Which wrap your back comfortably with a fit body curve. Lounge chair, high-back lounge chair and dining chair are included in this series. A higher quality aluminum base could also be customized for dining chair in a lower price.

PILLOW

The back and armrest cushions of the collection resemble soft pillows - just like the collection name - whose coverings can be removed for easy cleaning. Wrapped with KunDesign Tex, a material with remarkable durability and resistance to outdoor conditions, the quick-drying cushions are designed to be placed outside. Seated on a teak or bamboo base frame to create a textual contrast, which are FSC certified in consideration of the environment. With versatile modular components, the Pillow sofa is suitable for all interior and exterior settings.

SOHO (AT5309) dining table in White/ ceramic top 200 × 100 ×75cm.

RUGBY

An interactive conversation between metal, wood, and fabric resulted in the design of the RUGBY series. The upholstery's plump shape is relieved by spindle shaped-legs, so the resulting structure takes on a refreshing rather than chunky appearance. The armrests have a width and height that match the body's natural arm placement, and also serve as partition from the cold metal frame. Constructed with comfortable materials that are weather-resistant, the collection can be used in all spaces, both outdoors and indoors.

& side table in Silver Grey/teak top Φ48 × 54cm.

The geometric weavings of the of NEST mimic the appearance of rattan giving the sofa a tropical appearance. The wooden trays next to the armrest provide space for item placement. Crafted in weather-resistant ropes and quick-dry cushion, the sofa is suitable for both indoor and outdoor use.

NEST (KC8602) dining chair in Asphalt Grey/Dark Grey

FATTY (KC8803) lounge armchair in Vivid Blue/Light Grey.

FATTY

Fatty ensures durability and comfort. It has the softness of interior upholstery and the integrity of outdoor furniture. Plump cushions on a narrow frame provides a proportional contrast that distinguishes its look. The sofa features a lumbar cushion that can be stabilized with a button-and-strap fastening. Wrapped in Textilene and filled with quick-dry cotton, Fatty is both UV and weather resistant. The cushion armrests and wooden trays can be interchanged for extra versatility.

marble/ceramic top Φ 75 × 75cm.

BANYAN TREE

With a curvature that conforms to the natural arch of the human spine, the back of the Banyan Tree series is designed to put the body at ease. The interwoven strands are reminiscent of tree vines to create a distinctive look that can easily complement its surroundings. Weaved in weather-resistant and easy-to-clean material, the Banyan Tree is a versatile series that can be placed in small living spaces, both indoors and outdoors. Available in variations of sofa, lounge chair, rocking chair, and dining chair, the latter which features a stackable design that eliminates any storage problems.

SCREEN (KH8703) in White/Honey.

PIPE (KC8503) high-back lounge chair in Cream White; cushion in Charcoal.
LOTUS (KH8602) planter in Juniper Green

PIPE

Pipe is a powerful reinterpretation of the Windsor chair, adding a contemporary twist to a timeless design. The circular structure of the seatback is intended to envelope the body with comfort, along with the soft cushions which can be fastened to the back to prevent unwanted movement. The armrest corners are specifically made rounded for comfortable hand placement. Wooden legs have been added to the ends of the circular tubes, providing warmth for the metallic furniture. The coffee and side tables are double layered to expand potential storage spaces. Featuring weather-resistant finish in six colours, it is compatible with all kinds of indoor and outdoor use. PIPE is available in five chair variations.

PIPE (KC8503) dining chair in Asphalt Grey, rocking chair in Vivid blue; cushion in Light Grey.

PIPE (KC8503) dining chair in White & Carbon;
cushion in Dark Grey & Light Grey.

LEGO

With modular components that can be reassembled like toy bricks, the LEGO series was designed to be creatively versatile and fit for small spaces. The sofa has wide armrests that can be used as a pillow when lying down, but also removed to reveal a built-in wooden table whose placement can be changed by adjusting the cushions. The sofa back, which is three-tiered, has a colour scheme that can be mixed and matched to add a personal touch. Crafted in weatherproof material which is both durable and easily maintained, the sofa is suitable for both indoor and outdoor use.

Kun Design has further developed LEGO's functionality and flexibility as a sofa designed for young people and small families. The two-directional tray table and the movable armrests facilitates the use of this model, that combines aesthetics with practicality.

ORACLE (KC8501) high-back lounge chair in White;
cushion in Light Grey.
PENGUIN (KT8504) square side table in Silver Grey
52 × 52 × 52cm.

ORACLE

The Oracle conceptualizes the juxtaposition between opposites – soft cushions against solid aluminum backrests and warm wood against cold metal. The wide, rounded bamboos are intentionally placed on the armrest as partition between the body and metallic frame. Button details on the comfortable back cushion distinguishes the look of this classic outdoor series. Proposed as a loungechair, dining chair, and sunlounger, the latter which can be folded and stacked.

OVAL

OVAL chair is our contemporary and three-dimensional take of the traditional board back chair. The edge stamping craft allows it to have a large and three-dimensional backrest - comfortable and compact. The legs have plump lines that give off a powerful presence when placed in open space. We use wooden finish on the alumimium seat surface to make it more durable and easier to maintain while retaining the warm visual sense of wood.

OVAL (KC8507) lounge armchair in Midnight
BALANCE (KT8508) side table in Juniper Green/ OliveGrey Φ33.6 × 51 cm.

BALANCE

A return to the basics was the central theme at the start of our weight table design process. Weights are used as mass standards to express our understanding of the load bearing of the table. The lines on the weights are designed with respect to the golden ratio, thus the top and bottom components are firm and secure. The series of weights also have symmetrical upper and lower end-tables, with the upper one removable to serve dual functions of storage and flower arrangement.

BALANCE (KT8508) side table in Juniper Green/ OliveGrey/ Orange/ Carbon Φ33.6 × 51 cm.
BALANCE (KT8508) planter in OliveGrey Φ33.6 × 51 cm.

LOTUS PLANTER

The Lotus planter continues to express the family character of the series, with the central column shaped like a petal and a continuous combination of one petal to another. The overall flowerpot upper matches the rhythmic base of the petals below, achieving a more aesthetically pleasing ratio. This series is more suitable for home use with four reasonable sizes to meet your different plant needs.

LOTUS(KH8602) planter Φ40 × 42 cm & Φ40 × 52 cm & Φ28 × 34 cm in Olive/ Asphalt Grey/
OliveGrey/Orange

BRANCH

Designer draws inspiration from the power and perseverance of plant growth, thus arriving at the "Branch" series name. The unique warped edge design of the series makes the legs of the flowerpot look like growing branches of a plant, supporting the main body of the square flowerpot and showing off the static force of its structure. This series mainly includes portable flowerpots and tall flower holders.

NEST

The geometric weavings of the NEST collection mimic the appearance of rattan, giving the series a tropical look. On the highback-lounge chair, the weavings create a partition around the body for privacy. Crafted in weather-resistant ropes and quick-dry cushion, the sofa is suitable for both indoor and outdoor use.

BANYAN TREE

With a curvature that conforms to the natural arch of the human spine, the back of the Banyan Tree is designed to put the body at ease. The interwoven strands are reminiscent of tree vines to create a distinctive look that can easily complement its surroundings. Weaved in weather-resistant and easy-to-clean Kundesign Rope, the Banyan Tree is a versatile series that can be placed in small living spaces, both indoors and outdoors.

OVAL

OVAL chair is our contemporary and three-dimensional take of the traditional board back chair. The edge stamping craft allows it to have a large and three-dimensional backrest - comfortable and compact. The legs have plump lines that give off a powerful presence when placed in open space. We use wooden finish on the alumimium seat surface to make it more durable and easier to maintain while retaining the warm visual sense of wood.

LOOP

The LOOP chair was originally designed to express continuous lines. The entire chair is woven with a single continuous rope. In order to ensure continuity and product quality, the back and the seat of the chair were proportionally divided into four parts, which not only boosts the appearence, but also increases the product lifespan. Soft as well as responsive, the chair provides a comfortable seating experience without the need of a cushion. Additionally, the wear-resisting and strong PVC simplifies the cleaning processing - use a soft brush to give it a fresh new look.

PIPE

Pipe is a powerful reinterpretation of the Windsor chair, adding a contemporary twist to a timeless design. The circular structure of the seatback is intended to envelope the body with comfort, along with the soft cushions which can be fastened to the back to prevent unwanted movement. The armrest corners are specifically made rounded for comfortable hand placement. Wooden legs have been added to the ends of the circular tubes, providing warmth for the metallic furniture. Featuring weather-resistant finish in six colours, it is compatible with all kinds of indoor and outdoor use.

FATTY

Fatty ensures durability and comfort. It has the softness of interior upholstery and the integrity of outdoor furniture. Plump cushions on a narrow frame provides a proportional contrast that distinguishes its look. The sofa features a lumbar cushion
that can be stabilized with a button-and-strap fastening. Wrapped in Textilene and filled with quick-dry cotton, Fatty is both UV and weather resistant. The cushion armrests and wooden trays can be interchanged for extra versatility.

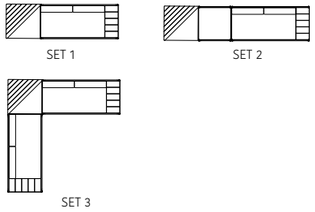
LEGO



With modular components that can be reassembled like toy bricks, the LEGO series was designed to be creatively versatile and fit for small spaces. The sofa has wide armrests that can be used as a pillow when lying down, but also removed to reveal a built-in wooden table whose placement can be changed by adjusting the cushions. The sofa back, which is three-tiered, has a colour scheme that can be mixed and matched to add a personal touch. Crafted in weatherproof material that is both durable and easily maintained, the sofa is suitable for both indoor and outdoor use.
The LEGO double-deck side table provides stylistic contrast with its triangular top, designed for easy storage and access. The aluminium plate on the LEGO rectangular coffee table can be removed and placed on the footstool to create a second side table when needed.

ORACLE

The Oracle conceptualizes the juxtaposition between opposites – soft cushions against solid aluminum backrests and warm wood against cold metal. The wide, rounded bamboos are intentionally placed on the armrest as partition between the body and metallic frame. Button details on the comfortable back cushion distinguishes the look of this classic outdoor series. Proposed as a loungechair, dining chair, and sunlounger, the latter which can be folded and stacked.

BALANCE

A return to the basics was the central theme at the start of our weight table design process. Weights are used as mass standards to express our understanding of the load bearing of the table. The lines on the weights are designed with respect to the golden ratio, thus the top and bottom components are firm and secure. The series of weights also have symmetrical upper and lower end-tables, with the upper one removable to serve dual functions of storage and flower arrangement.

LANTERN

The inspiration of Lantern series comes from the combination of oriental aesthetics and modern design. Lantern series is about "light", the lamp absorbs the configuration elements and special style from the traditional Chinese lantern and hand-basket. It retains the elegant "handle" design on the top, which can be easily carried and moved at will. For this hand lamp, it adds a small round bottom, which you can display plant, flower, decoration pieces to build the cozy atmosphere, delightfully fresh nature.

PENGUIN

The structure of the table is inspired by the stance of a penguin, hence the name of this collection. With a ceramic top sitting on matte finished frames, the natural style of Penguin will integrate well with different designs. Crafted in materials that are weather resistant, this can be placed both indoors and outdoors.

LOTUS PLANTER

The Lotus planter continues to express the family character of the series, with the central column shaped like a petal and a continuous combination of one petal to another. The overall flowerpot upper matches the rhythmic base of the petals below, achieving a more aesthetically pleasing ratio.This series is more suitable for home use with four reasonable sizes to meet your different plant needs.

BRANCH

It is inspirited from the power and perseverance of plant growth, thus arriving at the "Branch" series name. The unique warped edge design of the series makes the legs of the flowerpot look like growing branches of a plant,supporting the main body of the square flowerpot and showing off the static force of its structure. This series mainly includes portable flowerpots and tall flower holders.
